Florida became a Territory of the United States by purchase from Spain in 1821. Two counties were created. In West Florida all territory west of the Apalachicola River was known as Escambia County. It had Pensacola for its capitol.

All the country east of the Apalachicola River was known as St. John's County. St. Augustine was its capitol.

With the passing of the years, new counties were created from the two original ones. In 1824 Walton County was carved from Escambia County.

In 1842 Santa Rosa County was created from Escambia. It in turn lost Okaloosa County in 1915.

Bagdad is a sawmill town with its only industry gone. It is across the river and just one mile from the county seat of Milton. The big pine trees for miles around have been cut. The comissary is closed. The whistle is stilled. The houses are occupied still for the town is now a suburb of Milton. The cemetery on the highest hill is still used. It is fenced and well kept. It has an "air".

Holley is just a crossroads with one store, one church, one cemetery. The cemetery has a fine new fence and is well cared for as one of God's acres!

The Court House at Milton houses the marriage records. All prior to 1869 have been burned. I have copied only part of the early ones, Aug. 14, 1869- Oct. 2, 1870.
